Dear Colleague

Government backs industry to deliver the pensions dashboard

Today, my Department laid a Written Statement providing a pensions update, including an update on the pensions dashboard.

The statement makes it clear that the Government backs industry to deliver a pensions dashboard. An industry-led dashboard, facilitated by Government, will harness the best of industry innovation, and Government will protect pensions savers by legislating where necessary.

The Government has delivered a pensions revolution through automatic enrolment and increased pensions freedoms.

I am determined that the Government builds on these successes to empower people to save for retirement.

I hope you find this briefing useful. I am always happy to meet with colleagues to discuss their concerns so please do not hesitate in contacting me.

Best wishes

A handwritten signature in black ink, appearing to read 'Esther McVey', written over a light blue rectangular background.

The Rt Hon Esther McVey MP
SECRETARY OF STATE FOR WORK AND PENSIONS
